

Which team will win?

Spin the spinner twice:

Which team will score?

- darker grey means the Baboons score a goal
- lighter grey means the Yetis score a goal

Exactly two goals are scored in each match. Record your results for a 16 match season in a table and then tally the results:

	1 st goal	2 nd goal	Result
1	Y	B	YB draw
2	B	Y	BY draw
3	Y	Y	YY win
4	B	B	BB win
5	...		

YY wins	///	3
BB wins	### /	6
YB draws	###	5
BY draws	//	2
Total		16

1. How many times did the Yetis win (YY)?
2. How many times did the Baboons win (BB)?
3. How many times did the Yetis score first, but the Baboons then equalised (YB)?
4. How many times did the Baboons score first, but the Yetis then equalised (BY)?
5. Do any of your results surprise you at all? Why (not)?
6. The Baboons have more chances to score than the Yetis. What does this tell you about the teams?
